

- Easy transportable rain water bag (4kg)
- Direct drinking water.
- Can hold 1400 liter water.
- Indication price US\$75-100
- Minimum order 10 piece

Materials:

Outer bag material	Woven Polypropylene
Inner bag material	2 Ply or 1 Ply 100% virgin Polyethylene; Food Grade Polyethylene
Inlet and Outlet Fittings	Inlet and outlet fittings are standard PVC used for pipes in potable water applications
Self-Cleaning Coarse and Mesh Filter	Fine plastic mesh filter fits on coarse inlet filter preventing the entry of mosquitoes and most other non-water soluble particulates
